

D.I.Y. Backyard Ropes Course

Supplies:

¼" Clothesline (100ft +)

1 ½" x 1 ½" Wooden garden stakes (recommended)

Instructions:

1. Secure garden stakes into the ground in an uneven pattern but with 4-6ft path down the center. If you have a row of trees or a set of heavy patio furniture, these make for great alternative posts for your course!
2. Tie one end of the clothesline to a post at the start of the course. Pull the line to another post across the path then cut and tie the line to that post so that it holds a medium tension.
3. Repeat in a criss cross pattern at varying heights to create a web of clothesline across the path.
